

ASSESSING VAPING EXPOSURE RISKS FOR TEENS

A Resource Linkage Tool

MACON & JOAN BROCK
VIRGINIA HEALTH SCIENCES
AT OLD DOMINION UNIVERSITY

This tool is for education and medical professionals to assess a teen's risk of vaping use and addiction. The assessment can be completed with the teen present or after a discussion with them. If unsure about how the teen would answer, you can make your best guess. The assessment will match the teen to a risk level and link them to a list of resources appropriate for that risk level.

Pick which best describes the teen(s) with whom you are working.

- ☐ **The teen may not know anyone who vapes and probably has not tried it.** They may not know much, if anything, about vaping, but may have temptations to use.
- ☐ **The teen seems to know about vaping** and where to get vaping devices. **The teen may have vaped at least once**, but probably does not vape on a regular basis.
- ☐ **The teen vapes regularly, perhaps every day.** They may be using other substances such as alcohol or marijuana in addition to vaping nicotine.
- ☐ **Not sure:** little is known about how much the teen vapes or how much they know about vaping but resources are needed to address vaping prevention or cessation.

Results

LEVEL ONE

- ☐ May use if friends or family offer them a vape.
- ☐ Has never vaped not even one puff.

LEVEL TWO

- ☐ Has close friends or family who vape.
- ☐ Has vaped at least one puff.
- ☐ Has vaped no more than 9 times in past 30 days.

LEVEL THREE

- ☐ Has vaped 10 or more times in past 30 days.
- ☐ May use other nicotine products such as cigarettes or cigars or substances such as marijuana or alcohol.

Teen Vaping Use and Addiction Risk Level and Connection to Recommended Resources

Teen's Risk Level	How often they vape or use nicotine	Related knowledge and behavior	Link to resources
Level One	Never used	No or limited knowledge about vaping. Does not know how to get devices. Has never vaped not even one puff. No or limited exposure to friends or family who vape.	Vaping and nicotine prevention resources
Level Two	Any use (ever) or current	Is knowledgeable about products and devices and where to get them. Has had exposure to friends or family who vape. Has vaped no more than 1-9 times in past 30 days. Typically only uses recreationally among other people who vape.	Vaping and nicotine use intervention and cessation resources
Level Three	Regular use	Regular usage beyond recreational use. Has vaped 10 or more times in past days. Continues to vape despite negative consequences. May also be using other nicotine products such as cigarettes or cigars or substances such as marijuana or alcohol.	Vaping addiction and nicotine cessation resources

Level One: Vaping and Nicotine Prevention Resources

Prevention

Resources	Description and Services	Target Audience	Access
<u>(ASPIRE) A Smoking Prevention Interactive Experience: The University of Texas MD Anderson Cancer Center</u> mdanderson.org/ASPIRE	A prevention education service for teens and adolescents that is evidenced-based and tackles the full range of traditional and emerging products such as e-cigarettes(vapes, JUUL, etc.), hookah, and synthetic nicotine.	Best for adults seeking to engage youth between the ages of 11-18 in middle or high schools or other community/education settings.	Access is free but an account is required. Educators can monitor student's progress and grades. The program is also available in Spanish.
<u>Behind the Haze</u> behindthehaze.com	Behind the Haze offers a growing library of Message Packages, each containing all the creative elements necessary to deliver a specific vaping prevention message tailored to your community.	Best for youth between the ages of 11-18.	Content can be accessed on the Behind the Haze website, YouTube channel, and Rescue Agency.
<u>NOT for Me Online: American Lung Association</u> notforme.org	NOT for Me is a self-guided, mobile friendly online program that uses information from the American Lung Association's Not On Tobacco (N-O-T) [®] program to help teens break nicotine dependency, whether they vape, smoke or use other tobacco products.	Best for teens or adults (parents or helping professionals).	The N-O-T (Not On Tobacco) for Me free and available on the American Lung Association website.
<u>Rethink Vape: EVMS and funded by the Virginia Foundation for Healthy Youth</u> rethinkvape.org	Information and resources built with input from teens, medical professionals, and researchers to provide education and prevention about vaping.	Best for teens, parents, and providers.	Content and information can be accessed for free on the Rethink Vape website.
<u>The Real Cost of Vapes: FDA/HHS</u> therealcost.betobaccofree.hhs.gov/vapes	Provides accurate, up-to-date information about the harmful effects of tobacco use, so teens can know the real cost of smoking, vaping, and other tobacco use.	Best for youth between the ages of 11-18.	Information is freely available on the website.
<u>Stanford Tobacco Prevention Toolkit: You and Me, Together Vape-Free Curriculum</u> https://med.stanford.edu/	A 6-lesson evidence-based curriculum created by the Stanford REACH Lab as well as by our Youth Action Board, educators, healthcare providers, and scientists across the U.S. Every lesson provides activities, online quiz games, and worksheets in addition to presentations, resources, and other materials aimed at addressing key factors associated with youth e-cigarette use.	Schools or teachers of elementary, middle, and high school grade levels.	Information is freely available on the website.
<u>Vaping - the Truth Initiative</u> thetruth.com/vaping	Prevention and cessation information about vaping from the Truth Initiative. Features facts and information with graphics about vaping and the tobacco industry, videos, articles, and activities like quizzes to facilitate learning. There's also a link for the This is Quitting textbased support network.	Best for youth between the ages of 11-18.	Information is freely available on the website.
<u>Virginia Foundation for Healthy Youth: Nicotine Products Prevention Lessons</u> https://www.vfhy.org/prevention-lessons/	Nicotine Products Prevention Lessons provides prevention education for K-12 grade levels about products that contain nicotine. These lessons are correlated with Virginia's Standards of Learning.	Schools or teachers of grades K-12.	Free access to materials after completing a form on the website.

Level Two: Vaping and Nicotine Intervention and Cessation Resources Early Intervention

Resources	Description and Services	Target Audience	Access
<u>INDEPTH –An Alternative to Suspension or Citation:</u> <u>American Lung Association</u> lung.org/quit-smoking/helping-teens-quit/indepth	Instead of solely focusing on punitive measures, INDEPTH is an interactive program that teaches students about nicotine dependence, establishing healthy alternatives and how to kick the unhealthy addiction that got them in trouble in the first place. INDEPTH is taught by any trained adult in four, 50-minute sessions. Each session addresses a different tobacco-related issue and can be facilitated either one-on-one or in a group setting.	Best for youth between the ages of 11-18 in middle or high schools. Any adult can complete the online INDEPTH training, and receive a step-by-step guide that can be used to plan and implement the INDEPTH program at their school or community-based organization.	The free INDEPTH facilitator training can be accessed on the American Lung Association website. The training can be taken as a stand-alone training but is recommended to be taken within the N-O-T (Not On Tobacco) facilitator training.
<u>NOT for Me Online:</u> <u>American Lung Association</u> notforme.org	NOT for Me is a self-guided, mobile friendly online program that uses information from the American Lung Association's Not On Tobacco (N-O-T)® program to help teens break nicotine dependency, whether they vape, smoke or use other tobacco products.	Best for teens or adults (parents or helping professionals).	The N-O-T (Not On Tobacco) for Me free and available on the American Lung Association website.
<u>Quit Vaping: SmokefreeTeen from NCI/NIH/HHS</u> teen.smokefree.gov/quitvaping	Information and resources to quit vaping and stay vape-free. Includes resources, quit planning tools, and information to assist with quitting vaping.	Best for teens or adults (parents or helping professionals).	Information is freely available on the website.
<u>Vaping – Know the Truth: EVERFI</u> everfi.com/courses/k-12/vaping-programs-forhigh-school-students	Vaping education program for grades 8-12 from EVERFI and The Truth Initiative. Four 5-10 minute digital lessons that could be delivered on individual basis and in a classroom setting. Focus is on education and prevention but also provides access to the text message quit vaping program, This is Quitting.	Best for adults seeking to engage youth between the ages of 11-18 in middle or high schools or other community/education settings.	EVERFI secures community partners to sponsor K-12 schools so all EVERFI lessons, resources, and support so they're always free for districts. Teachers, providers, and students can access the content on EVERFI.com.
<u>Stanford Tobacco Prevention Toolkit: Healthy Futures Curriculum: Alternative-to-Suspension Curriculum</u> https://med.stanford.edu/tobaccopreventiontoolkit/healthy-futures-nicotine.html	A 6-lesson evidence-based curriculum created by the Stanford REACH Lab as well as by our Youth Action Board, educators, healthcare providers, and scientists across the U.S. Every lesson provides activities, online quiz games, and worksheets in addition to presentations, resources, and other materials aimed at addressing key factors associated with youth e-cigarette use.	Schools or teachers of elementary, middle, and high school grade levels.	Free and open access to materials. Needs access to a computer and internet.

Cessation

Resources	Description and Services	Target Audience	Access
<u>BecomeAnEX ('EX'): Truth Initiative® and Mayo Clinic Nicotine Dependence Center</u> becomeanex.org	This program also offers 24/7 support in the EX Community from former smokers, information about addiction and medications to help with quitting, text messaging support and conversation guides for parents, and there are interactive tools and videos for quitting techniques for parents to pass along to their children such as building a quit plan.	Adults, young adults, and parents with teens who smoke, vape, dip, or chew.	Access is free but an account is required.
<u>This is Quitting: the Truth Initiative</u> truthinitiative.org/thisisquitting	The first-of-its-kind program to help young people quit vaping, This is Quitting has helped nearly 400,000 youth and young adults on their journey to quit vaping. Learn more about how it works and the additional resources available for parents of young vapers and for adults who want to quit.	This is Quitting is tailored based on age (within 13 to 24 years old) and product usage to give teens and young adults appropriate recommendations about quitting.	Teens and young adults can join for free by texting DITCHVAPE to 88709
<u>Live Vape Free VA: Virginia Department of Health</u> livevapefreeva.org	Vape Free Virginia is a free service offering professional support and expert advice to parents and teens. The program educates young people about the harms of vaping and offers the support they need to quit and empowers parents to have productive conversations with their teens about the risks of vaping.	Best for teens or adults (parents or helping professionals).	Services can be accessed for free on the Vape Free website.

Level Three: Vaping and Nicotine Cessation Resources Cessation

Resources	Description and Services	Target Audience	Access
<u>BecomeAnEX ('EX'): Truth Initiative® and Mayo Clinic Nicotine Dependence Center</u>	This program also offers 24/7 support in the EX Community from former smokers, information about addiction and medications to help with quitting, text messaging support and conversation guides for parents, and there are interactive tools and videos for quitting techniques for parents to pass along to their children such as building a quit plan.	Adults, young adults, and parents with teens who smoke, vape, dip, or chew.	Access is free but an account is required.
